

Drip-Kleen

Reg. Act No. Act29GNR529/252733/070/629

IRRIGATION SYSTEM CLEANER:

Drip-Kleen is a fast and powerful broad spectrum bacterial, fungal, algae, spore and protozoa killer. Drip-Kleen will remove mineral deposits e.g. iron (Fe), manganese (Mn) from the irrigation system.

COMPOSITION: Stabilized Biocide

DIRECTIONS FOR USE:

Once open, use within 48 hours.

Shock treatment of drip- and micro jet irrigation system: Use a mixture of 1L Drip-Kleen and 50ml Bio-Prep per 6 m³ of water flow per hour. (e.g. if the water flow is 30 m³ per hour – use mixture of 5L Drip-Kleen and 250ml Bio-Prep). Application of the mixture must take place in a period of 8 to 10 minutes. Switch irrigation system off after this period and let it stand for 12 to 18 hours.

Maintenance for drip- and micro jet irrigation system (2 - 3 times a season): Use a mixture of 0.5 L Drip-Kleen and 50ml Bio-Prep per 6 m³ of water flow per hour. Application is done exactly as for the above mentioned shock treatment.

Pivots: Use a mixture of 1L Drip-Kleen and 50ml Bio-Prep per 4 m³ of water flow per hour.

Continuous maintenance (nurseries): Use a mixture of 1 to 2 L Drip-Kleen and 50ml Bio-Prep per 100 m³ of water flow.

Main pipe lines: Use a mixture of 6 to 8 L Drip-Kleen for every 2 to 2.5 m³ of water in the main pipe lines. The lines should be closed off at the ends. After 24 to 36 hours, the end of the main pipe line should be opened and rinsed thoroughly.

Sand filters: Apply 6 L Drip-Kleen on top of the filter sand (per 48"unit) and leave for 18 to 24 hours. Backwash the filter thoroughly until the sand is clean. Repeat if necessary.

ADVANTAGES:

1. Has no pH restrictions to work effectively. | 2. Are non-toxic to humans, animals, plants, fish and the environment.
3. Biodegradable and leaves no residues after operation. | 4. Application is easy, fast and effective.

WARNINGS:

Keep out of reach of children. Do not ingest (inhale or drink). Avoid contact with eyes, face and clothing. In case of eye contact, remove any contact lenses, rinse with cold water for at least 15 minutes. In all cases seek medical advice if necessary.

Persons with asthma or sinus sensitivity should be cautious when using this product in undiluted form.

3
SHELF LIFE
OF 3 MONTHS
