

Product suitable for use in Organic Agriculture
conforming to the annexes of the (EC)
regulation n° 2018/848 and 2021/1165.
Inspected by ECOCERT SA F-32600

NUTRI-SOIL

GROUP 2 FERTILIZER | Reg. No. B 6043 Act No. 36 of 1947

Nutri-Soil is a protein-containing plant nutrient to activate soil life. It contains freely available amino acids, carbon extracts, macro & micronutrients and a plant hormone. Improves root development and plant nutrient uptake, increase micro-organisms concentration, enhance the decomposing of organic material and accelerate metabolic processes.

Nutri-Soil can be applied in the early growing season for all types of crops and is formulated as a soil application.

COMPOSITION WHEN PACKED

N: 22 g/kg (25 g/l)	P: 4 g/kg (5 g/l)
K: 2 g/kg (4 g/l)	Ca: 19 g/kg (22 g/l)
Mg: 1 g/kg (1 g/l)	S: 12 g/kg (14 g/l)
Cu: 2 mg/kg (4 mg/l)	Zn: 31 mg/kg (35 mg/l)
Mn: 31 mg/kg (35 mg/l)	B: 4 mg/kg (5 g/l)
Fe: 86 mg/kg (100 g/l)	Mo: 77 mg/kg (90 mg/l)

Freely available essential amino acids: 20 g/kg
Essential fatty acids (omega 3, omega 6 and omega 9)

Auxins: 0,068 mg/L SG @ 20°C: 1.17

DIRECTION FOR USE

Use higher rates for crops cultivated under irrigation and for high plant density situations. Reduce rates proportionally when spraying smaller / younger plants and trees. The rate of application is also dependent on soil fertility and crop deficiencies. Lower rates should be applied for maintenance, and higher rates should be applied to correct nutritional deficiencies. It is essential to obtain the specific recommendation from your representative before using this fertilizer.

CROP	SOIL APPLICATION RATE PER HA		
Fruit Trees	5 - 6 L (Early season and every 21 - 30 days thereafter, until fruit set)		
Pecan Nuts Macadamia Nuts	5 - 6 L (Early season and every 21 - 30 days thereafter, until fruit set)		
Grapes (Table & Wine)	3 - 5 L (Early season and every 21 - 30 days thereafter, until fruit set)		
Potatoes, Onions	4 - 6 L (First application in furrow during planting, and 1 - 2 applications through the irrigation system from emergence until tuber initiation)		
Maize	5 - 6 L (In furrow during planting)		
Soybeans, Sunflower, Beans	5 - 6 L (In furrow during planting)		
Lucerne, Pastures, Medics	2 - 3 L (In furrow during planting, or one week after planting through the irrigation system)		
Grain fields	3 - 5 L (In furrow during planting, or one week after planting through the irrigation system)		
Sugarcane	8 - 10 L (In furrow during planting, and every 20 - 30 days after emergence until Grand Growth Stage)		
Seedling Drench	100 - 150 ml per 100 L water. Drench tray before transplanting.		
Hydroponics	<table border="0"> <tr> <td data-bbox="305 845 696 908"> Cuttings: 2 ml per 10 L water Flowering: 10 ml per 10 L water Adjust your water pH to 5.5 - 6.5 </td> <td data-bbox="696 845 1208 908"> Vegetative growth: 4 ml per 10 L water Fruiting: 15 ml per 10 L water </td> </tr> </table>	Cuttings: 2 ml per 10 L water Flowering: 10 ml per 10 L water Adjust your water pH to 5.5 - 6.5	Vegetative growth: 4 ml per 10 L water Fruiting: 15 ml per 10 L water
Cuttings: 2 ml per 10 L water Flowering: 10 ml per 10 L water Adjust your water pH to 5.5 - 6.5	Vegetative growth: 4 ml per 10 L water Fruiting: 15 ml per 10 L water		

MISCIBILITY:

Nutri-Soil is compatible with most agricultural remedies and nutrients. If unsure about the miscibility and compatibility of the product, test mix before application.

Although this product has been extensively tested under a large variety of conditions, the manufacturer does not warrant that it will be efficacious under all conditions, because the action and effect thereof may be affected by factors such as abnormal soil, climatic and storage conditions, quality of dilution water, compatibility with other substances not indicated on the label as well as by the method, time and accuracy of application. The registration holder furthermore does not accept responsibility for damage to crops, vegetation, and the environment or harm to man or animal or for lack of performance of the product concerned due to failure of the user to follow label instructions or to the occurrence of conditions, which could not have been foreseen in terms of the registration. Consult the supplier in the event of any uncertainty.
